COMMITTEE CHECK LIST

The following checklist has been developed by the National Rodeo Association to assist committees with the conduct of their respective rodeo promotion. If you require any clarification on any of the following points please contact the NRA Office and our administrative staff will endeavour to assist you.

EVENT REGISTRATION

Please register your event with the DPI and advise the ambulance and police in your area of your forthcoming rodeo.

PUBLIC LIABILITY

Public Liability (\$20,000,000.00 Cover) is available through the NRA by contacting the office.

With regards to Public Liability, if your committee has its own Public Liability cover the NRA Office will require a copy of the policy along with the Certificate of Currency to be sent with the affiliation form and fee. It has been noted that some Public Liability Policies do not include cover for rodeo - in particular rodeo stock and arenas. **Please look over your policy as the Certificate of Currency should state Rodeo in the description of Activities covered.** – If your policy does not have this written down then the committee will most likely not be covered for rodeo.

RODEO OFFICE

Please make sure there is a safe & Secure office provided with sufficient Lighting and Shelter for NRA Central Entries personnel to be able to work on Results and nominations and Payouts.

SPECTATOR SAFETY

It is the Committees responsibility to protect the safety of workers and the public. As part of your risk assessment the NRA recommends the best way to do so is with eye-catching and informative signs that alerts workers and the public to the hazard and informs them of the best way to avoid or remedy it.

Clearly displayed signs around the grounds keep spectators clear of any hazards that you cannot remove. Another way of securing these out of bounds areas is to have them roped off with bunting or ropes with signs. It is also frequently needed to keep the public out of areas with high risk such as Arenas, Backyards and Horse warm up zones to avoid any unfortunate and costly public liability claims.

Please ensure that adequate safety precautions are in place for spectators to be informed that they must not be near or on the arena fence. A portable arena is designed to move so spectators must be at least one (1) metre away from the fence or portable panels.

NO SPECTATORS ARE TO BE IN THE ARENA, BEHIND THE CHUTES AND BACKYARD AREA.

(We strongly suggest having security available, they can help ensure these requirements are in place)

ANIMAL WELFARE

In the sport of professional rodeo, cowboys share the limelight with the rodeo livestock. For a cowboy to compete at the highest level, the livestock also must be in peak condition. Both are athletes in their own right. The very nature of rodeo requires a working relationship, and in some events a partnership, between the cowboys and animal athletes. The National Rodeo Association takes animal welfare seriously and is committed to complying with the animal welfare legislation relevant to the state or territory in which the rodeo is conducted.

It is expected that that the operation of any rodeos in Queensland will be conducted in accordance with the Queensland rodeo code of practice. From 1 January 2022, the rodeo code of practice will be a mandatory code under the Animal Care and Protection Act 2001 (the Act). It contains the minimum acceptable standards of welfare for all animals being used at rodeos and rodeo schools.

It is expected that the operation of any rodeos in New South Wales will be conducted in accordance with the NSW code of practice. Compliance with code will ensure that no offence is committed in relation to sections 18 and 18A of the Prevention of Cruelty to Animals Act 1979.

Both codes of practice require the Rodeo Organiser to ensure the following.

- An **Animal Welfare Officer** (Livestock Handler) is appointed for the event. It is recommended that the principal Stock Contractor or Judge be appointed as the Animal Welfare Officer.
- A **Veterinarian** is appointed for the event. The veterinarian must be either in attendance at the event or be available for consultation at all times that animals are present at the event, if not in attendance.
- A **conveyance device** (vehicle) must be available to safely and humanely move a seriously injured animal. Suitable screening (e.g. hessian or tarpaulin) should also be available.

BARREL RACE EVENT BARRELS

- Barrels must be 44-gallon size (200 litre) steel drums as standard with both ends closed.

OFFICIALS

Judges and officials are to be appointed from the NRA approved officials list published in bi-monthly NRA Sports News. The NRA Office can if required assist committees in the selection of Judges, Timekeepers and Chute Boss.

All NRA approved rodeos must have:

- Two (2) NRA approved Judges**
- Two (2) NRA approved Timekeepers (All Round Rodeos)**
- One (1) NRA approved Timekeeper (Bull Rides/Pts Awd)**
- One (1) NRA approved Chute Boss**

Please complete the Confirmation of Officials two (2) weeks prior to your Rodeo with names of your Contractors, Judges, Chuteboss, Timekeepers, Pick-up Team and Bull Fighting Clowns, Announcer – all of whom must be NRA Members.

INSPECTION CHECK LIST

The site inspection check list along with the Rodeo Confirmation Check list are required to be completed and return to NRA office at least one (2) weeks prior to the Rodeo.

CONTRACTORS

Contractors must be financial members of NRA. All contract stock must be selected from Contractor's listing published in NRA bi-monthly Sport News and website.

FIRST AID

It is mandatory that all committees have a qualified Level Three First Aid Officer in attendance whilst the rodeo is in progress. The First Aid Officer must be Level 3 or above with a fully equipped vehicle (i.e. have the defibrillator on board) to meet the requirements of insurance cover. First Aid Officers must have a designated area outside of the arena with vehicle access to Arena and clear access for vehicle to leave premises in case of an emergency.

ADVERTISING

Committees must display on programs and posters that the rodeo is NRA affiliated (NRA Logo).

GATE ENTRY

All competitors and officials receive free admission to the rodeo, a list of competitors and officials will be forwarded from NRA Office two (2) days prior to the rodeo.

With the Committee's approval only one (1) partner and/or parent/legal guardian entry will be half price (to be confirmed on the affiliation forms).

PAYMENT TO COMMITTEES

The NRA Office will do a direct deposit to the Committee for the committee levy and add back within 3 working days after receiving the paperwork from the rodeo. Please provide us with your bank details on the Rodeo Confirmation & Officials Form.

POSTED PRIZEMONEY PAYOUTS

The Committee have a couple of options regarding the posted prizemoney payouts. These options are: Payouts in Cash / Cheque or pay the prizemoney directly to NRA prior to the event and NRA will handle direct payments to the place getters.

ARENAS

All arenas used for rodeos are to be stock proof, including suitable fencing to prevent the escape of any animal from the arena or yarding facilities.

- (a) The arena must be completely top dressed or ripped to a minimum of 75mm and a maximum of 100mm. The minimum time event box length is 5 meters and minimum time event box width is 3 meters.
- (b) Portable arena sizes to comply with recommendations of NRA.
- (c) (i) Suitable transport is to be available in the case of injury of stock.
(ii) Suitable gate entrances are to be available for the moving of injured competitors.

BACKYARDS

For your safety, competitor safety and the safety of the sport, an area is too made available around the backyards, wherever possible, which is accessible to competitors only.

Directors will consult with committees re having a roped off area when the backyards are easily accessible by the public (they will have rope and signs).

This applies to the Rough Stock competitors and access for Time Event horses.

These competitors and animals are very competitive and need to stay focused on their job at hand and not worry about interference from or the safety of the public.

COMPUTER DRAWS

As you are aware random computer draws are now done through the office before the rodeo – i.e. stock draws for Rough Stock Events and position draws for Time Events. This saves an enormous amount of time on the day of the rodeo.

Final numbers for each event will be emailed through to the committee by the NRA office on Thursday close of entries with updated numbers emailed on Monday once entries are finalized. The committee will then need to have a program sent to the NRA Office by Wednesday so the Draws can be uploaded to our website.

The committee must advise their stock contractor of these final numbers.

It is the responsibility of the stock contractor to contact the NRA Office before noon on Wednesday with the relevant stock numbers that they wish to include in the draw for the particular event. All stock must be registered with the NRA Office before they can be included in the draw. All stock must be clearly numbered when they arrive at the rodeo.

SAFETY MUST COME FIRST

SITE INSPECTION CHECKLIST

Please tick ✓

Are there designated areas for?

➤ Competition (including warm up areas)	<input type="checkbox"/>	<input type="checkbox"/>	Notes
➤ Spectators (separated from horses and vehicles)	<input type="checkbox"/>	<input type="checkbox"/>	
➤ Competitor Parking (floats, trucks, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	
➤ Public Parking (guest and spectator vehicles, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	
➤ Horses (yards, stables, laneways, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	
➤ First Aid (Competitors/general public/access by emergency vehicles and services)	<input type="checkbox"/>	<input type="checkbox"/>	

Inspection of Competition / Activity Areas (including warm up areas)

➤ Are each of these areas free of hazards and obstacles? <i>(Rocks, sticks, overhanging branches, rubbish, etc.)</i>	<input type="checkbox"/>	<input type="checkbox"/>	Notes
➤ Are the surfaces safe and appropriately prepared for their intended use? <i>(Slippery, too wet, too dry, dust level, ploughed, suitable depth)</i>	<input type="checkbox"/>	<input type="checkbox"/>	
➤ Are the fences and gates appropriate for the activities? <i>(Keeping livestock in, spectators out, numbers of competitors)</i>	<input type="checkbox"/>	<input type="checkbox"/>	
➤ Is there signage identifying each of these areas for their intended use? <i>(Competitors Only, No Dogs, Warm up Arena, Marshalling Yard, etc.)</i>	<input type="checkbox"/>	<input type="checkbox"/>	
➤ Is there appropriate signage at all access points to all competition areas? <i>(No Entry, Competitors Only)</i>	<input type="checkbox"/>	<input type="checkbox"/>	

Inspection of Spectator Areas (separated from horses and vehicles)

➤ Are each of these areas, including roads and tracks free of hazards and obstacles? <i>(Rocks, sticks, overhanging branches, rubbish, uneven surfaces, etc.)</i>	<input type="checkbox"/>	<input type="checkbox"/>	Notes
